DESCRIPTION

Brilgrout is a concentrated cleaner specifically designed for cleaning and renovating horizontal and vertical grouts and interstices. Ideal for both floor and walls, it gives surfaces a pleasant scent. Suitable for removing wall paint stains, limescale residues, blackening, saltpetre stains and dirt particularly resistant to common detergents, Brilgrout quickly restores floors, grouts and interstices to their original clean state.

OLFACTORY PYRAMID

N.D.

HOW TO USE

Dilute with water up to a product concentration of at least 20% (1 part of product and 4 parts of water). Spread the solution on the surface to be treated, scrub with a scrubbing brush, a brush, a broom, a scrubbing pad or a floor cleaning machine for a few minutes, then rinse thoroughly with water. To speed up the cleaning of particularly dirty grout and interstices, you can use the product undiluted or diluted up to 50% with water. For floor periodic maintenance cleaning, we recommend using Brilgrout diluted in the washing water at a ratio of 50-100 ml of product per 5-10 litres of water.

WARNING

DANGER (below the pictogram)
Causes severe skin burns and eye damage.

Do not breathe dust / fumes / gas / mist / vapours / spray.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Wear protective gloves/protective clothing/eye protection/face protection.

Immediately call a POISON CENTER or doctor/physician.

Wash hands thoroughly after handling.

CONTAINS

Phosphoric acid

OTHER INFORMATIONS

Warning: Do not mix with other products. Rinse thoroughly with water after each application. Do not use on limestone, polished marble, lead-polished surfaces, slate, or in general on acid-sensitive materials. To ensure safer use of the product, given the wide variety and different quality of materials available on the market, it is recommended to carry out a preliminary test on a small area to verify the material's compatibility with the product.
