DISPOSAL INDICATIONS & CERTIFICATIONS

DESCRIPTION

MoniAmori Solar Defence Compact Foundation with SPF 30 is easy to apply and ideal for all skin types. Its creamy, comfortable texture transforms into a soft powder on skin, ensuring long-lasting wear and an even finish. Its vegan, talc- and paraben-free formula perfectly evens out the complexion and protects against both UVA and UVB rays, preventing photo-ageing and leaving the skin soft and moisturised. It contains special micro-spheres that blur imperfections with a soft-focus effect, offering both coverage and a smoothing action. Its formula is enriched with:

-Anti-ageing active ingredient, which stimulates collagen production and protects skin cells from UVB rays, helping reduce the appearance of fine lines and wrinkles;

- Oat flour, with lightening properties and a mattifying and smoothing effect;

-Poppy Seed Oil, an emollient that smooths the skin and helps restore its natural barrier, providing moisture and reducing trans-epidermal water loss.

Shade: Meringa

HOW TO USE

Apply the product using a sponge. Dab gently, starting from the centre of the face outwards for even application.

WARNING

Not for children under 3 years of age. Keep away from direct light and heat sources. Close after use. Avoid release to the environment. Avoid use in case of skin infections. For personal use only.
